Mr. Dean Reeves  
Reeves Contracting  
1400 Buford Hwy Suite C2  
Sugar Hill, GA 30518

Dear Dean:

I wanted to take a moment to say thank you for your team's efforts on the McDaniel Glenn Redevelopment Project. This urban redevelopment project consisted of a total re-imaging and redevelopment of the McDaniel Glenn Housing Project built in the 1950's. The project site consisted of 41 acres and is only 1/2 mile south of the State capital. The creative redesign included 203 townhouses and single family homes, 1,000 multi-family units, and 20,000 S.F. of mixed use space. Reeves Contracting was an integral part of the project's early success. Many aspects of the site presented issues for changes, and your team met every challenge presented to them without waiver.

The McDaniel Glenn Redevelopment project is a very important project for our firm and it was a benefit to have your input and experience during the entire construction process. We appreciate the hard work and professionalism of the team and look forward to future opportunities to work with them again.

Regards,
