Mr. Dean Reeves  
Reeves Contracting Company  
1400 Buford Highway  
Bldg C-2  
Sugar Hill, GA 30518

RE: Reference

Dear Dean,

I am writing to chronicle our experience with Reeves Contracting. Since 1996, Reeves Contracting has been the contractor on a number of large projects where J. Lancaster Associates, Inc. prepared the design documents and performed construction administration. These projects are as follows:

- Centennial Public Improvements Phase I-IV (Techwood Homes)
- Carver Infrastructure Phase I and II (Carver Homes)
- Collegetown Public Improvements Phase I and II (Harris Homes)
- Grady Redevelopment Public Improvements Phase I (Grady Homes)

These projects consisted of relocation of combined sewers, storm sewer construction, sanitary sewer construction, water main replacement, street construction and lighting system replacement.

Reeves Contracting has competently completed these projects and shown the ability to deal with difficult and adverse field conditions which often occur when rebuilding areas with existing infrastructure over 100 years old. With Reeves Contracting help, areas like Techwood Homes, Harris Homes, Carver Homes and Grady Homes have been transformed into modern new urban communities.

Thanks again for your persistence and hard work.

Sincerely,  
J. LANCASTER ASSOCIATES, INC.

Joseph L. Lancaster, P.E.
